

CP-ROLL

Roll film consists of 2 rolls of film that are laminated together with a roll laminator. There are a wide variety of rolls up to 1,120mm (from A3, A2, A1 to AO size) . It is ideal for large sized applications. The lamination of a wide format document with a roll laminator is more cost effective than with pouch laminator. CP Roll is a registered brand of Fujipla Inc, Japan. Fujipla Roll film is not only waterproof; it is also anti static & has a U.V. cut-off effect.
